## About Me

Aspiring full-stack developer skilled in Node.js, eager to create innovative web applications. Proficient in JavaScript, React, Express, and MongoDB, with a passion for problem-solving and continuous learning. Ready to contribute my expertise and adaptability to drive impactful solutions and excel in a dynamic tech environment

## Experience

CRTD technologies Bhopal | Frontend developer
*Aug 2022 - Oct 2022*

- I completed a three months internship at CRTD Technology as a web developer and learned a lot and understood the work experience at industry level.
- Here, i worked on HTML, CSS and javascript.

## Projects

### LMS (Learning management System)
*Aug 2023 – Sept 2023*

*Link :- https://github.com/satyam-kumar-21/LMS*

Key features.

- Our LMS, powered by MERN (MongoDB, Express.js, React.js, Node.js), facilitates user reg., course management by admins, user subscriptions, secure data handling via MongoDB & payment integration with Express.js. User-friendly React.js UI, email notifications, rigorous testing, compliance with data regulations, regular maintenance, and robust user support are key features.

### FLIPKART CLONE
*July 2023 – Sept 2023*

*Link :- https://github.com/satyam-kumar-21/flipkart-clone*

Key features.

- Creating a Flipkart clone using MERN stack and Material UI involves building a responsive UI, user registration, product listings, cart, and checkout. Backend with Node.js, Express, MongoDB, payment integration, security, admin panel, and testing. Deploy, document, and maintain for a robust e-commerce site.
